Letter No. 05.03.01-009086

Brian A Petersen
Project Executive
American Bridge/Fluor, A JV
375 Burma Road
Oakland, CA 94607

Dear Brian Petersen,

Bikepath Metal Railing (Tubular) Tolerances

We have received ABF Letter No. 1534 dated February 14, 2011 regarding "Bikepath Metal Railing (Tubular) Tolerances". The Department understands your concerns however the tolerances suggested in your letter may not achieve the architectural requirements for the completed work. The required tolerances have been provided in the weekly China/Pier 7 Global Tolerance Meeting. An additional copy is attached.

In addition, these tolerances have been discussed with ABF and ZPMC during our weekly fabrication meetings. Currently, the Department is awaiting your fabrication cost and time impact for this work

If you have any questions I may be contacted at (510) 455-1798.

Sincerely,

A handwritten signature in blue ink, appearing to read "William S. Casey".

WILLIAM S. CASEY
Construction Manager (OBG)
